Latitudes Capricorn® Decking

Tropical Composite Decking is Naturally Beautiful, Ultra-Low Maintenance.

The new generation of Latitudes Capricorn has an innovative cap stock for a richer look and outstanding performance. The durable synthetic cap stock deck boards feature an improved scratch-resistant surface that is also extremely resilient to stains and fading. Backed by an all-new 25-year stain and fade warranty, it offers a more natural-looking surface, realistic grain pattern and is available in five Capricorn tropical colors, Koa and Arabica which are variegated and the solid colors of Cedar, Gray and Walnut which are all fortified with the same proven Strandex® technology as Latitudes.

Facts

- Advanced co-extrusion technology for ultra-low maintenance.
- Durable, stain-and fade-resistant exterior finish.
- Available in 12', 16' and 20' slotted board lengths. Slotted edges are encapsulated on three sides with a stain, fade and scratch resistant cap stock deck surface.
- 16' three-sided encapsulated solid radius edge lengths are available for stair and trim boards.

The new and improved Latitudes co-extruded composite decking is the perfect balance of beauty, strength and ultra-low maintenance performance.
