

Pearl
INTERIOR TRIM

Facts

- FSC Certified substrate
- Smooth, defect-free Pearl finish
- Guaranteed inventory levels to support our dealer network
- Available in all the most common Northeast moulding profiles

Pearl Interior Trim

Pearl Interior Trim is an advanced moulding line, which allows the installer to provide a superior painted finish and achieve substantial time and labor cost savings over traditional interior trim.

Facts

- Available in all the most common Northeast moulding profiles
- Guaranteed inventory levels to support our dealer network
- Saves thousands of dollars in labor costs on large projects

Outstanding Features

- Pearl Interior Trim uses a high-grade pine substrate with no mill "fall-out" which reduces job site issues of warping, cupping and cracking
- Pearl Interior trim is coated with a premium PearlCoat finish, which provides an excellent surface for painting. The result is a super-smooth finish painted product
- Pearl requires virtually no prep time
- Simply install, fill nail holes, apply one coat of interior latex paint and the project is completed

Environmental Capabilities

By managing the process from forest to finished product, Masisa ensures consistent supply, quality and reliability today and tomorrow. Because our fingerjoint wood mouldings carry a eco-friendly certification label, our customers can rely on our proper replanting practices, sound forest management and responsible tree harvesting that combine to provide a healthy environment and a long-term, renewable resource.

Pearl Interior moldings and jambs are made from timber grown in responsibly managed forests that have earned FSC (Forest Stewardship Council) Chain of Custody Certification SGS-COC-0678. Kiln Dried Chilean Plantation pine combined with state-of-the-art manufacturing techniques result in tight-machined joints, the highest quality and strength, plus exceptional value to our customers.

Available in 84" & 96" lengths

1. Install Pearl Interior Trim

2. Fill nail holes

3. Apply 1 coat of premium quality 100% acrylic latex paint

Finishing Instructions
Pearl Interior Trim is ready to be finished with only a single coat of premium quality 100% acrylic latex paint. Ideal for the painter who prefers to spray.

* Some dark colors may require a 2nd coat of paint.
