

TITAN
PRO RAIL

RDI Titan Pro Railing

Titan Pro Rail™ was created with the installer in mind. A Titan rail section assembles in minutes and is ideal for residential and commercial applications. Metal to metal connections add to the sound engineering that enables easy and safe installations. Titan is manufactured using the highest quality materials to meet your performance and building requirements.

Titan's pre-assembled, galvanized steel posts eliminate the time consuming task of installing brackets on the job. We have already done your work for you. Corner, end, and mid posts are supplied with heavy duty cast aluminum brackets attached to vinyl sleeved structural posts.

Outstanding Features and Benefits

- The strength of metal without the maintenance.
- Preassemble railing sections and move them to the installation area in one unit; simply drop the preassembled section into the preinstalled brackets.
- Titan's economical price and labor-saving installation make it a great value when compared to wood railing and its associated maintenance.
- Titan's stylish top rail profile has classic lines and a flat top making it a great choice for porches and decks.
- Ideal in residential or commercial applications.
- Titan meets the International Residential Code for stair hand railing; no secondary handrail is needed for residential applications.
- Titan exceeds U.S. building codes for rating applications.
- Titan carries a limited lifetime warranty.
